Booklet Making, Made Easier

Great connectability with digital printers.

The Bourg Booklet Maker is designed to operate seamlessly with the right-to-left or left-to-right paper path. It is connectable to a wide range of Canon production digital printers and presses.

Highest quality and speed production.

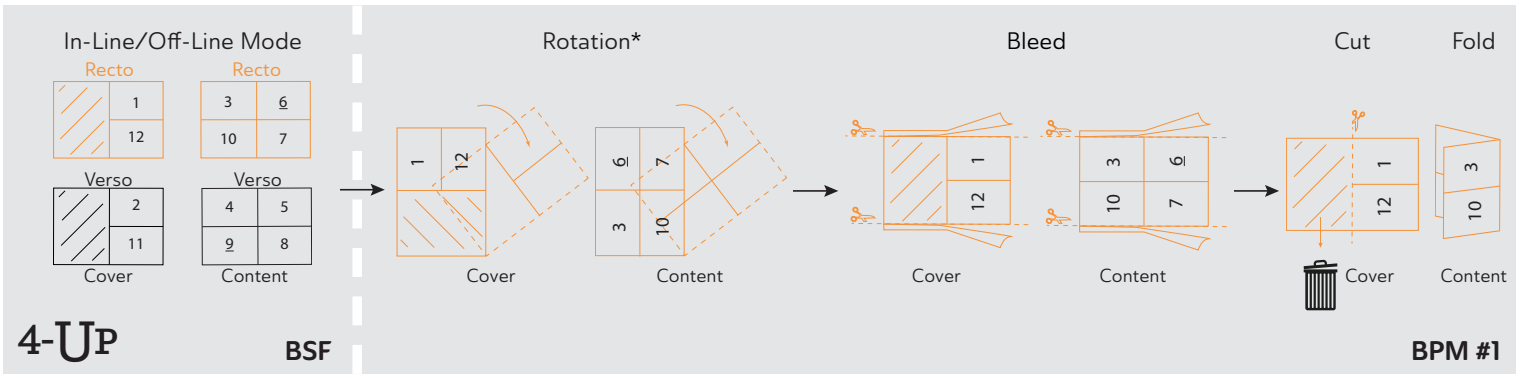

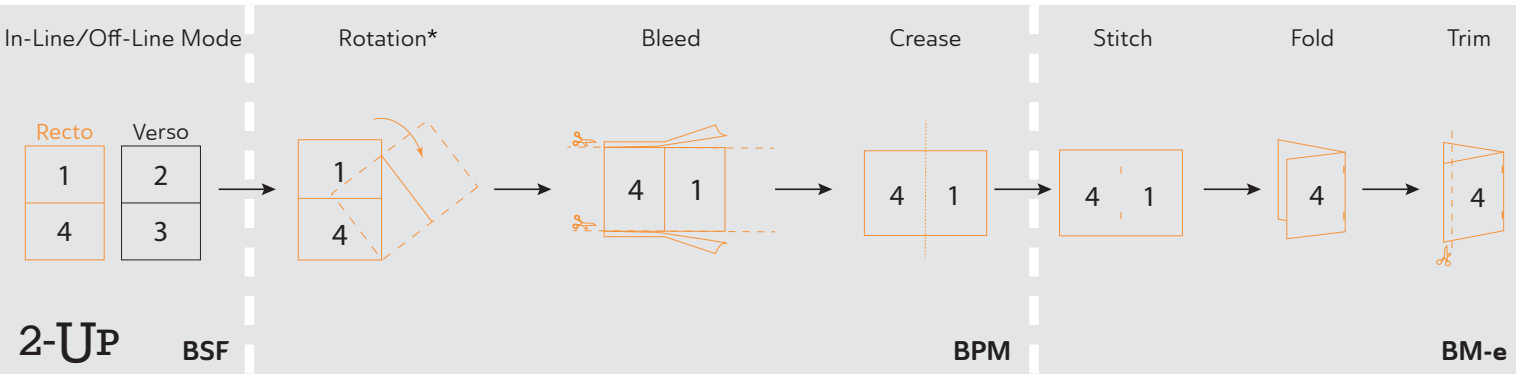

The solution stitches, folds and trims sheets to create over 14 types of stitch positions on booklets, highly customizable to suit every business needs. Automatically measures the thickness of each booklet in operation to have zero waste and to increase productivity.

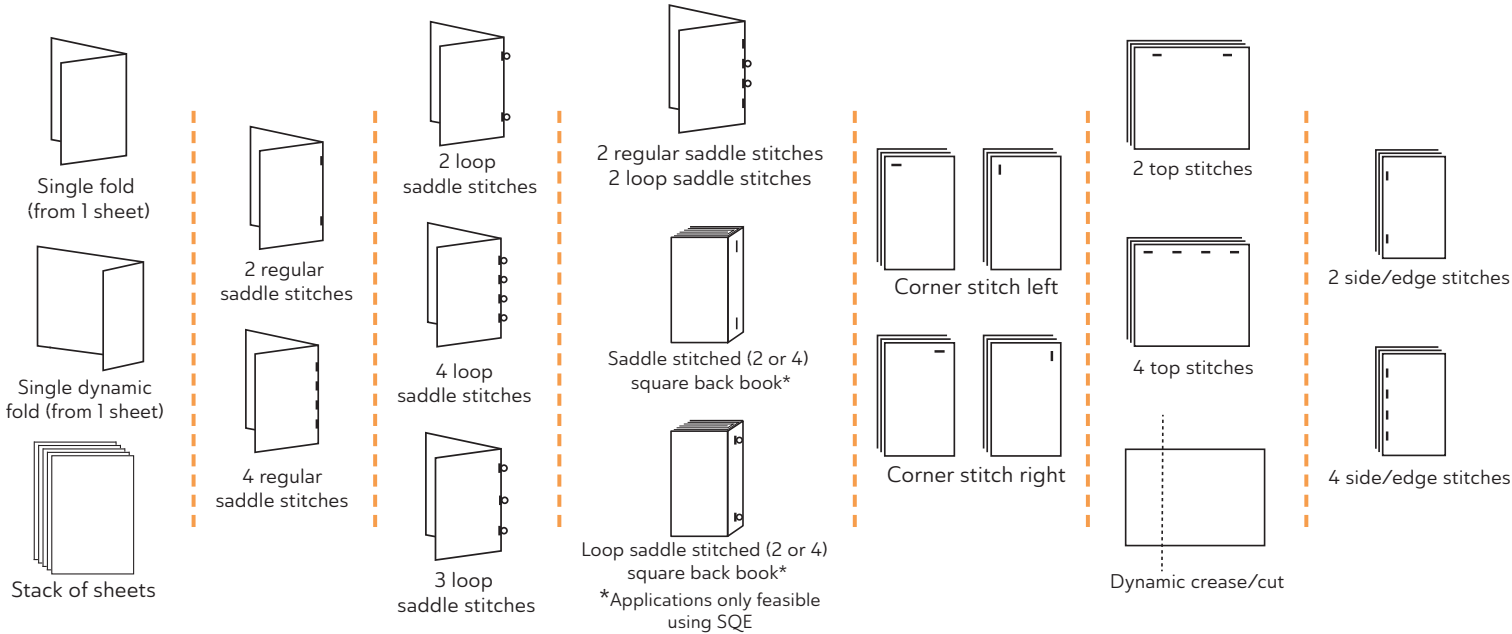

PRODUCTION WORKFLOW

Our Booklet Making Solution is bi-directional and modular, works In-Line, Off-Line and in Dual-Mode.

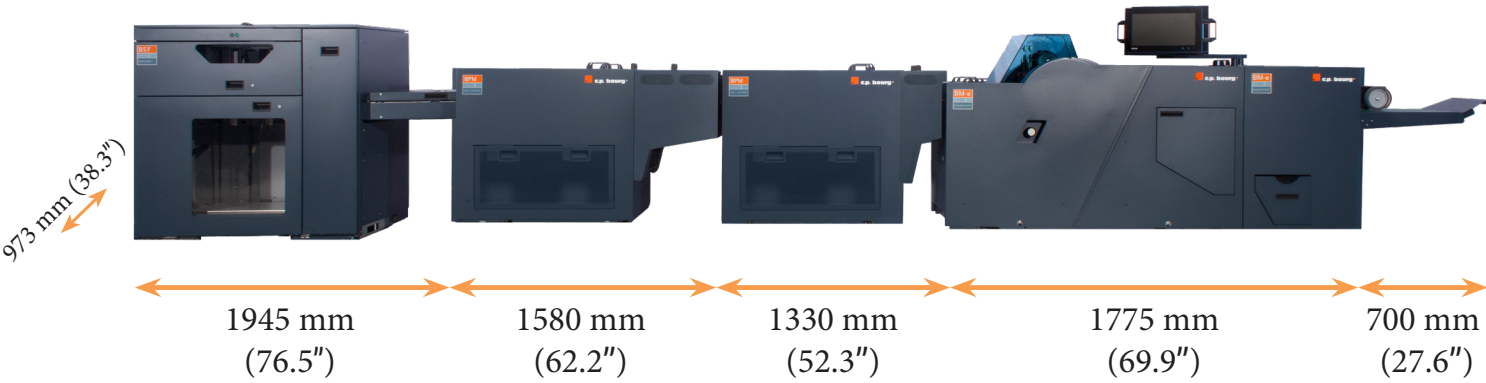

This is a demonstation of a brochure made with 2 sheets.

FINAL APPLICATIONS

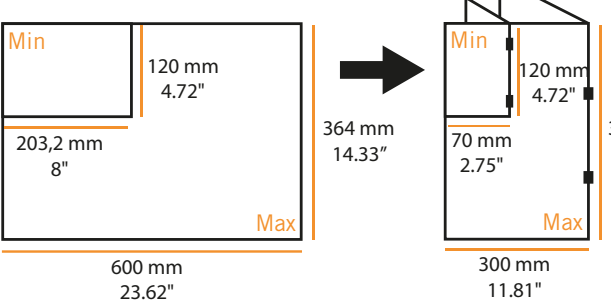

DIMENSIONS

YOUR BOOKLET MAKING SOLUTION

The Bourg Booklet Maker (BM-e) is C.P. Bourg's premium award winning booklet maker that utilizes the state-of-the-art technology with unparalleled quality and speed to produce on-demand booklets.

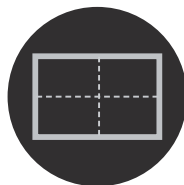

The industry first Bourg Sheet Feeder (BSF) uniquely combines the best of Off-Line & In-Line finishing with its Dual-Mode capability. The BSF brings perfectly finished jobs, great flexibility, shorter turnaround and maximum productivity without manual intervention.

The Bourg Sheet Preparation Module (BPM) is a fully automated, modular and scalable sheet preparation unit that vastly simplifies the creation of booklets. The BPM revolutionizes and challenges the establishment through innovation.

WHAT WE DO BETTER

- ◆ In-Line, Offline & Dual-mode with digital printers.
- ◆ Bi-Directional paper workflow.

- ◆ Ultra-modular platform, 1-Up / 2-Up / 4-Up production workflows.
- ◆ Up to 20 different final applications.

- ◆ Full JDF automation from web platform to stitched booklets.
- ◆ Booklet of One or Many.

“

With the traditional offset gathering lines, we could only do one print at a time. We had to wait for the end of the printing before collating.

With the C.P. Bourg BM-e we produce on demand. The job is digitally printed, saddle-stitched, trimmed and packed. We have no loss of time. We doubled our production capacity.

It's awesome!

”
